THE EDOX HISTORY

1860

CHRISTIAN RUEFLI-FLURY

In 1860, Christian Ruefli-Flury was born in Courrendlin (Switzerland). In 1870, he commenced his horology apprenticeship with Urs Schild before joining the Eterna watch company. In 1883, he married Pauline Flury and worked for Jean Aegler. He then made several contributions to the city of Biel.

1884

IT ALL BEGAN WITH
A TRUE LOVE STORY

Christian Ruefli-Flury, produced a pocket watch for the 25th birthday of his beloved wife Pauline. Impressed by this exquisite gift, she convinced her husband to set up his own watch making company in Biel, a city famous for its well-educated watch engineers. Christian Ruefli-Flury called his company “Edox” which means “measuring of time” in ancient Greek.

1900

THE BIRTH OF A LOGO

The hourglass was officially used as a timeless symbol of Edox and since then, it has been a proud part of the official Edox company logo.

1955

A GROWING COMPANY

At that time, Edox employed up to 500 watchmakers and the company moved into new, modern and larger production facilities. Edox was amongst Switzerland’s leading watch companies.

THE WATER CHAMPION

1961

1961

DELFIN THE ORIGINAL

The famous "Delfin" timepiece was launched, featuring a double caseback, special protective gaskets and a specially invented double O'ring system, setting new standards of shock protection and water resistance. Edox became known as "The Water Champion" of Swiss watchmaking.

1965

HYDRO-SUB

The revolutionary Hydro-Sub collection was launched, featuring the famous double O'crown patented Edox gasket for increased water resistance.

1970

THE FIRST GENUINE WORLD TIME WATCH

This year saw the introduction of the world's first truly global timepiece, the "Geoscope" watch. Covering all time zones, the watch provided timekeeping for almost 50 different cities around the world, as well as local time.

1998

WORLD RECORD STILL UNBROKEN

Edox engineers and watchmakers developed the world's slimmest calendar watch, the "Les Bémonts Ultra Slim" collection. The movement had a thickness of only 1.4 mm, which is a technical record still held by Edox to this day.

2010-2023

THE TIMEKEEPER
BMW M MOTORSPORT

After being associated to many prestigious racing competition such as WRC, Rally Dakar, and to the Sauber F1 Team, Edox is now the **Official Timing Partner of BMW M Motorsport**.

This partnership is a strong testimony of Edox's presence amongst the most reknown and active Swiss watch brands.

THE NEPTUNIAN COMPLETES ITS EVOLUTION

Nearly 50 years ago, Edox launched the legendary SkyDiver, a durable sports timepiece created especially for a military elite group. Now, with the release of the Neptunian, Edox completes its 1973 model's transformation into an extremely rugged dive watch and a new collection in its own right.

DIVE

OFFSHORE INSTRUMENTS

By becoming the Official Timekeeper of the Class-1 World Powerboat Championship in 2007 and creating the CO-1 collection, Edox raised the resistance to water and shocks of its watches to an even higher level.

COLLECTION'S EVOLUTION

2007

Official Timing partner of Class 1 World Powerboat Championship
Designed with a scratch-resistant ceramic bezel.

2007

Edox presented the second generation of the Class 1 collection in Dubai. For the first time, a punched propeller of a racing boat adorned the 4mm thick case back of the collection. Since that date, the propeller has been an actual symbol of this high-grade sports watch.

2008

CO-1 Chronometer Automatic
With materials as in the construction of racing boats: ceramic, titanium, steel.

2010

The automatic helium valve replaced the manual version and was installed in every CO-1 watch.

2013

CO-1 Automatic Chronograph Skeleton - the Ghost Ship.

2019

CO-1 Carbon Chronograph Automatic
New case design: carbon cover. Extremely water-resistant.

HIGH PRESSURE RESISTANT

Water-resistant to an incredible 1'000m, the Edox Neptunian is built ultra-tough to handle not only the pressures of the deep but, thanks to its strong and durable stainless-steel case, anything on the surface as well. A 3mm-thick sapphire crystal protects the classic, clean dial encircled by a ceramic bezel. The case back features a striking engraving of Neptune, the Roman God of the Sea.

COLLECTION'S EVOLUTION

1969

SkyDiver Automatic
Original Produced for Swiss paratroopers.

1973

SkyDiver Automatic

THE WATER CHAMPION WATCH

The Delfin collection was first launched in 1961 and used revolutionary watch parts such as double O'ring gaskets for crowns and pushers and a special shock absorbing caseback in order to withstand an impressive water resistance of 200 meters.

Nowadays, this special equipment is still featured in Edox Delfin timepieces.

COLLECTION'S EVOLUTION

THE NORTH SEA'S FRIGID WATERS ARE UNFORGIVING.

Working more than 300m deep, in pitch black and under crushing pressure more than 30 times greater than that on the surface, requires courage and skill. The North Sea Divers, who in 1967 first helped unlock the riches off the coast of Norway, had those qualities in droves.

NORTH SEA

THE INVERSE MOON LANDING.

The Moon landings captured the imagination of all mankind. But an equally audacious adventure unfolded on Earth in 1978 when divers made their own 'giant leap' 320m under the icy waters off Norway. Dubbed 'The Inverse Moon Landing', it was the deepest ever dive in the North Sea.

ON LAND, AIR OR SEA

Rumoured to be launched following a Swiss colonel secret request in 1973, the SkyDiver collection pays tribute to paratroopers and the extreme conditions they might face – on land, air or sea.

COLLECTION'S EVOLUTION

1969

SkyDiver Automatic
Original Produced for Swiss paratroopers.

1973

SkyDiver Automatic
Second generation with greater water-resistance.

2019

SkyDiver Military Automatic
Reedition of the SkyDiver from 1973

2021

CHRONO RALLY

38001 TINNO3 NO3

RALLY INSTRUMENTS

The Chronorally is a revolutionary chronograph with new, sophisticated technical functions originally developed for rally drivers. It has been the official collection of FIA World Rally Championship (WRC), the Dakar Rally, the FIA World Rallycross championship and for the former Formula 1 team Sauber. It will now be worn by BMW drivers.

MARKETING & MORE

mares
EDOX
Maître Horloger - Les Genevez
depuis 1884
Mares, world leader in the diving equipment industry since 1949, and Edox agreed on a long term partnership that will reinforce the Swiss premium brand's position as The Water Champion of the watchmaking industry.

SPONSORING

OFFICIAL TIMING PARTNER OF BMW M MOTORSPORT

Edox will be the exclusive "Official Timing Partner" of BMW M Motorsport. The partnership includes engagements in the BMW Junior Team, the BMW M2 Cup, as well as the GT3 highlight, the 24h race at the Nürburgring.

This partnership is a strong testimony of Edox's presence amongst the most reknown and active Swiss watch brands.

MARIANNA GILLESPIE WATER CHAMPION AMBASSADOR

The Russian-born Frenchwoman, is the current French national and world record holder in multiple disciplines. Marianna has been world champion six times, ranked No. 1 in the world multiple times and she is also the youngest winner of the prestigious Vertical Blue competition.

She is an ambassador for the iconic Edox Delfin diver's watch collection and offered product-specific guidance to further refine the new Delfin lady collection.

DOMINIQUE AEGERTER INTERNATIONAL EDOX AMBASSADOR PROFESSIONAL MOTORBIKE DRIVER

Swiss motorcycle ace Dominique Aegerter has joined Edox Swiss Watches as an international brand ambassador.

Aegerter started in Moto 2 at only 20 years old. He is the current MotoE and Supersport World Champion.

EDOX QUALITY

Batteries

In compliance with global regulations and standards, Edox equips its quartz timepieces with mercury-free batteries. This is a positive step towards environmental sustainability with no effect on the watch precision and efficiency.

Edox double O'ring Crown or Pusher

Since the 70's, Edox has set specific quality and technical standards for ensuring the water resistance of diving timepieces. The double O'ring crown or pusher has been engineered by Edox to allow to increase the resistance to water pressure. Timepieces equipped with crowns or pushers featuring a double O'ring are featuring the special pictogram for easy understanding.

Helium Escape Valve

Some of our CO-1 and Neptunian timepieces are equipped with a decompression system which allows helium to escape from inside the watch when worn for professional use in pressure chambers (long-term underwater work, crude oil exploration, etc).
The Edox helium valve opens and closes automatically. It is imperative that the models equipped with a non-automatic helium escape valve (such as older Edox timepieces) have the helium valve screwed back in order to guarantee their water resistance.

Ceramic

Up to four times harder than stainless steel, ceramic is scratch-resistant and thus extremely durable. Mainly used to build the bezels of Edox watches, this material will also prevent the colours from fading.

Carbon

Carbon first became widespread in industries like aerospace and Formula 1. Exceptionally strong yet surprisingly light, Edox uses this material to build solid case constructions while giving them a very unique and distinctive look.

Chronometer

When Edox creates a chronometer watch, it means that the movement hosted has successfully undergone the precision test of the Official Swiss Chronometer Testing Institute (COSC), based in Switzerland.
These movements have a certified precision of -4/+6 seconds per day, about three times better than a standard Swiss mechanical movement.

Bronze

Bronze has natural properties that set it apart from other materials. Bronze does not rust and is therefore widely used in nautical applications and for some Edox diving watch cases, bronze will react with other elements producing a layer of oxidization on its surface. This patina then acts as a protective coating and makes every Edox bronze watch unique.

DLC

Diamond-Like Carbon (DLC) is a coating in a layer of extremely durable and scratch-resistant carbon particles. It possesses the most desirable physical characteristics of diamond – hardness and durability – and with a sleek beauty. This treatment will improve the durability and the aesthetics of the Edox watch cases.

Hand-assembled

Every single Edox watch is carefully hand-assembled by qualified Swiss watchmakers in our ateliers in Les Genevez. Each one of them is checked and controlled over a long period of time – by both human beings as well as special equipment to ensure optimal quality.

Leather

All Edox leather straps are specially cut, stitched and padded by expert craftspeople. Various ways of tanning provide different touch and feel for the straps made of cow or calf leather. It is always important to remember that colors and suppleness of leather are subject to change with time and exposure to external factors. Daily showers or swims are not recommended. If your consumers live a very active lifestyle, especially one involving frequent exposure to salt water and heavy perspiration, we recommend a steel bracelet or rubber strap.

Luminescence

This technology, branded under the name Super-Luminova, offers brightness in low-light conditions, thanks to a non-radioactive and non-toxic material like the tritium previously employed in the industry. Edox uses Super-Luminova X1 for its highly functional attributes. It is applied on watch parts such as hands, numerals, bezel indices, etc.

Mother-of-pearl

Resilient, and iridescent, mother-of-pearl is integrated in many Edox dial designs. It is produced inside the shells of certain mollusk shells. This is why each dial made of mother-of-pearl is unique.

Movements

Mechanical movement:

A mechanical movement undergoes several stresses in its life. To ensure it will remain functional and precise as long as possible, Edox simulates watch wearing in its own quality office for every single manual and self-winding mechanism.

PVD

Edox uses PVD coatings which is a high-performance pollution-free and non-allergenic technology also used in the aeronautic industry, is widely used in watchmaking. The process involves putting a fine titanium coating on stainless steel by condensing a metal vapor in a partial vacuum.

Rubber

Edox uses genuine high-grade rubber for its straps (a natural material and extremely comfortable). The rubber is silky finished and easy to maintain with the proper cleaning.

Sapphire crystals

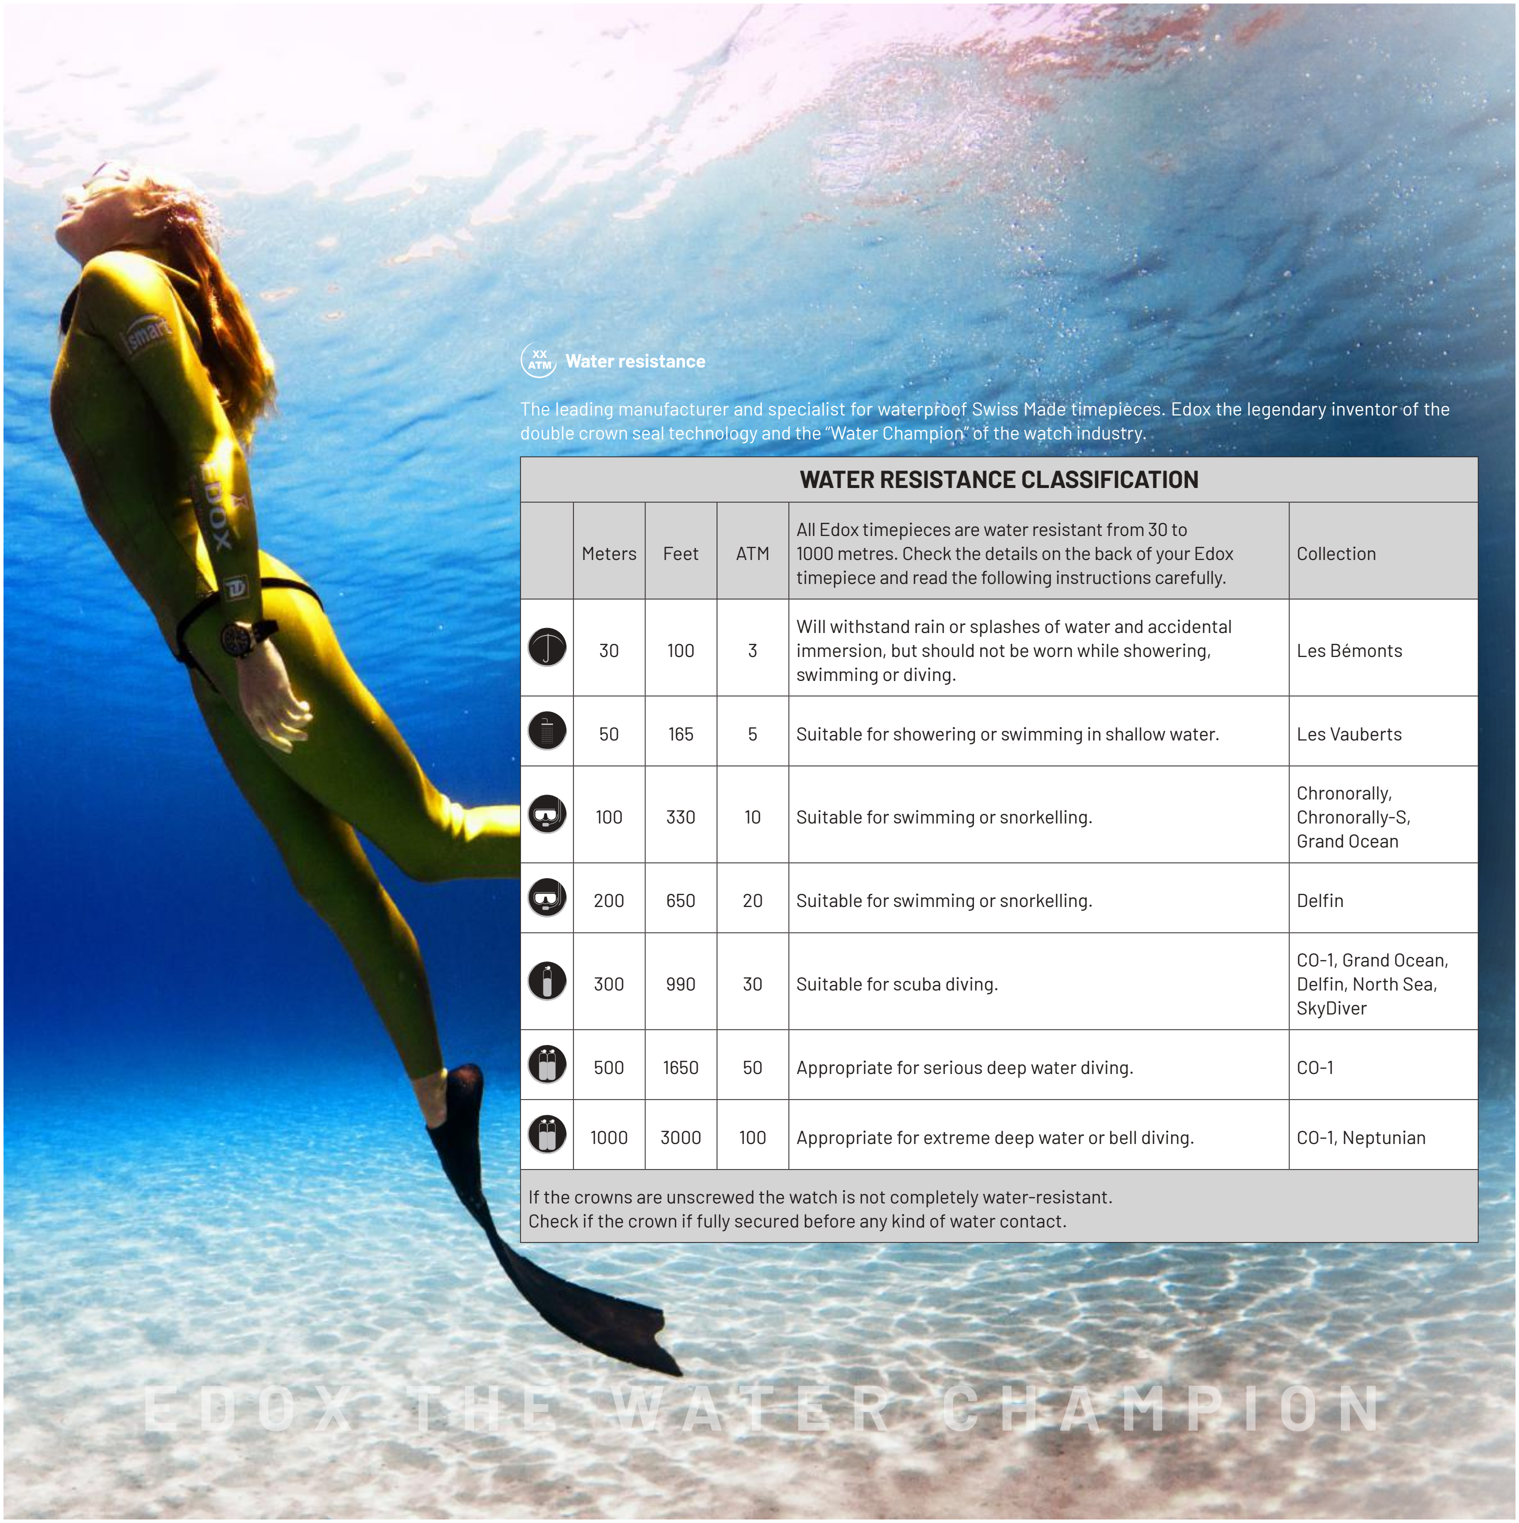

100% of Edox timepieces are fitted with a scratch-resistant crystal that has been cut from a polished slice of solid sapphire. Each has a triple-coated anti-reflective treatment on the internal side for better legibility.

Stainless Steel

The 316L stainless steel alloy used in Edox cases and bracelets has strong anti-magnetic properties and is optimized for toughness and corrosion resistance. It is also a good choice for consumers allergic to nickels.

Titanium

Edox integrates this metal to some of its sports timepieces, as it is as strong as steel but 45% lighter and highly resistant to corrosion. The high tensile strength to density ratio makes it the ideal material for active lifestyles.

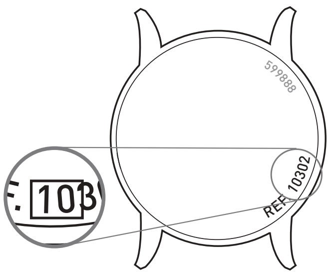

Water resistance

The leading manufacturer and specialist for waterproof Swiss Made timepieces. Edox the legendary inventor of the double crown seal technology and the "Water Champion" of the watch industry.

WATER RESISTANCE CLASSIFICATION					
	Meters	Feet	ATM	All Edox timepieces are water resistant from 30 to 1000 metres. Check the details on the back of your Edox timepiece and read the following instructions carefully.	Collection
	30	100	3	Will withstand rain or splashes of water and accidental immersion, but should not be worn while showering, swimming or diving.	Les Bémonts
	50	165	5	Suitable for showering or swimming in shallow water.	Les Vauberts
	100	330	10	Suitable for swimming or snorkelling.	Chronorally, Chronorally-S, Grand Ocean
	200	650	20	Suitable for swimming or snorkelling.	Delfin
	300	990	30	Suitable for scuba diving.	CO-1, Grand Ocean, Delfin, North Sea, SkyDiver
	500	1650	50	Appropriate for serious deep water diving.	CO-1
	1000	3000	100	Appropriate for extreme deep water or bell diving.	CO-1, Neptunian
If the crowns are unscrewed the watch is not completely water-resistant. Check if the crown if fully secured before any kind of water contact.					

REFERENCE NUMBER SYSTEM

The following information will help you on how to handle the Edox reference number, which will give you helpful product information regarding movements, dials and cases.

CO-1
01125 | CLNGN | BUNN | Ø 45 MM

01125 CLNGN BUNN MOVEMENT The first 2 or 3 digits of these five figures represent the Edox movement code. Please refer to the page 112-116 of this catalogue.	01125 **CLNGN** BUNN CASE MATERIAL The digits and/or letters represent the material and surface treatment (colour) of the case. (See the table)	01125 CLNGN **BUNN** DIAL VARIATIONS The digits and letters represent the colour and design of the dial.
